

Q-AOS SDGs Special Webinar

Kyushu University Asia Week 2025

Mobility & Impact Reporting: Leveraging Green Mobility & Achieving Net-Zero Carbon Emissions

This webinar will explore cutting-edge developments and interdisciplinary approaches in achieving sustainable transportation and net-zero emissions through innovations in mobility systems, materials science, energy efficiency, and sustainability reporting.

SESSION FORMAT

PANEL DISCUSSION WITH PRESENTATIONS FOLLOWED BY A MODERATED Q&A SESSION

SESSION SCHEDULE

5 TH NOVEMBER 2025, WEDNESDAY

16:00 - 17:30 JAPAN TIME

14:00 - 15:30 MALAYSIA TIME

13:00 - 14:30 BANGLADESH TIME

09:00 - 10:30 UK TIME

SPEAKERS

DR. MD RISHAD AHMED

Associate Professor, University of Nottingham (UK)

Expert in clean transport energy systems, specialising in high-efficiency power electronics and SiC/GaN integration for EVs, aerospace, and renewables.

DR. MD NUR-E-ALAM

Materials Scientist, Research Fellow, Lecturer
Universiti Tenaga Nasional (MY)
Edith Cowan University (AUS)

Focuses on smart energy harvesting systems, nanofabrication, magneto-phonic materials, and renewable energy innovations for future mobility systems.

DR. MD TAPAN MAHMUD

Chairman & Associate Professor, Dept. of AIS,
Bangladesh University of Professionals (BD)

Researches sustainability accounting, governance, and ethics. Advocates for accountability in green initiatives and bridging the academia-industry gap

MODERATOR

DR. NUREN ABEDIN

Assistant Professor, Kyushu University Institute
for Asian and Oceanian Studies (JP)

Specializes in sustainable community mobility, inclusive and technology driven transport system
